Response to Amendment

This office action is in response to the amendment filed on 07/05/2005.

Claim Objections

1. Claims 16 and 18 are objected to because of the following informalities:

Claim 16, line 4, delete repeated limitation "an analog mixer phase detector;" and

Claim 18, line 1, change "18" to --16—for proper claim dependency.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 3. Claim 19 is rejected under 35 U.S.C. 102(b) as being anticipated by Meltzer et al. (U.S. Pub. No. 2004/0223575).

With respect to claim 19, Meltzer et al. discloses, in Fig. 1, a frequency synthesizer including a voltage controlled oscillator [11], a loop filter [27], and an analog mixer phase detector [13] (see U.S. Pub. No. 2003/0058961, Fling et al., paragraph [0129], line 1, for the term "PLL mixer/phase detector), a method comprising adjusting the voltage applied to the voltage controlled oscillator from the loop filter [27] until the frequency of an output signal of the analog mixer phase detector [13] is within a pass-band of the loop filter [27] by providing a current (from charge pump in 13] to a timing capacitor [RC see details of 27of Fig. 1 in Fig. 5) of the loop filter to cause the voltage supplied [output from 27] to the voltage controlled

Application/Control Number: 10/713,717

Art Unit: 2816

oscillator [11] to change based on a time constant [RC see details of 27 of Fig. 1 in Fig. 5) of the loop filter.

Allowable Subject Matter

- 4. Claims 2-16, 18 and 20 are allowed.
- 5. The following is an examiner's statement of reasons for allowance:

The closest prior art fails to disclose or fairly suggest:

- a) A frequency synthesizer comprising an auxiliary digital frequency detector having an output terminal coupled to a second input terminal of the loop filter, in combination with the remaining claimed limitations, as called for in independent claim 2; or
- b) A frequency synthesizer comprising means, coupled to a second input terminal of the loop filter, for making the analog mixer phase detector automatically acquire phase lock when the phase locked loop is out of lock, in combination with the remaining claimed limitations, as called for in independent claim 16.

Remarks

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Application/Control Number: 10/713,717 Page 4

Art Unit: 2816

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Inquiry

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Linh M. Nguyen whose telephone number is (703) 305-0414.

The examiner can normally be reached on Alternate Monday and Tuesday to Friday from 5:30 to 3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Timothy Callahan, can be reached on (703) 308-4876. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9319 for After Final.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0956.
